Hi Peter!

Thank you so much for responding. Post docs and graduate students would be wonderful! You can give them my information if you would like and they can contact me directly. Thank you so much again!

Ali

Ali,

Thanks for the opportunity. I will circulate this to the faculty. However, they are stretched very thin. Would you be interested in research scientists, post docs, or graduate students as instructors?

Peter

Hi Prof. Fisher,

I hope this email finds you well! My name is Ali Mehan. I am the Associate Director of Curriculum & Instruction at Dearborn Academy, a small therapeutic school in Newton, MA that specializes in supporting students with social emotional needs and mild to moderate learning disabilities.

I am reaching out to you because we are in need of a part time physics instructor and were wondering if you had any professors that may be interested in teaching two sections of physics for high school students with learning disabilities? The courses could be instructed in person or virtually and would be supported by an assistant teacher and a supervising special educator. Please let

me know if you have any interested parties or questions. I look forward to hearing from you! Thank you!
