## *Announcement sent on behalf of NIST Precision Measurement Grants Program*

Dear Colleague,

This announcement is inviting abbreviated proposals for Precision Measurement Grants in the amount of \$50,000 per year, renewable for two additional years for a total of \$150,000, to be awarded by the National Institute of Standards and Technology (NIST) beginning October 1, 2021.

Please help us bring the program to the attention of potentially interested researchers by sharing this email with them. (Applications from female and minority candidates are especially encouraged.) For your information, the two most recent NIST Precision Measurement Grant recipients are:

**Edmund Myers**

Florida State University, Tallahassee, Florida, USA

Title: *Towards a test of CPT with the Antihydrogen Molecular Ion*

**Saul Perlmutter**

University of California, Berkeley, California, USA

Title: *NIST-Traceable Flux Calibration of Standard Stars for Cosmology*

For more information and details on how to apply, please visit the [Precision Measurement Grants Program](#) website.

Sincerely,

Joseph N. Tan  
Manager  
NIST Precision Measurement Grants Program
