Good afternoon Alan, Michale, Troy, Rob, Michel, and Peter,

I sent the below email with attached PDF to all SoS Faculty members on Friday, October 8th letting them know about the Singapore-MIT Alliance for Research and Technology (SMART) Call for Concept Papers for Large-Scale Research Programs. I wanted to email you all to ask you all to remind your faculty members of this funding opportunity.

Please let me know if you have any questions!

Many thanks!

Connie

Subject: CALL FOR CONCEPT PAPPERS: Singapore-MIT Alliance for Research and Technology (SMART) Call for Concept Papers for Large-Scale Research Programs

Good morning School of Science Faculty Members,

Please see attached the Singapore-MIT Alliance for Research and Technology (SMART) Call for Concept Papers for Large-Scale Research Programs. The deadline to submit a concept paper is November 8, 2021.

Summary: SMART seeks concept ideas for multi-investigator (5-8 MIT and 5-8 Singapore PI's) large-scale research and development programs with the potential for significant societal and/or economic impact in 10-15 years (note that MIT and Singapore investigators need not be identified at this time). Successful programs are funded initially for five years and possibly an additional five years, if there is satisfactory progress. At this time, SMART only requests for the Faculty/Principal Investigator to provide a page (no longer than one) describing the **idea and vision as well as the breakthrough research it requires** (at this time we don't seek more in-depth technical details) that can result in significant impact in Singapore and the world.

Concept Paper Deadline: November 8, 2021

Award Amount: The selected projects can be funded at a level of US\$30.00 million to US\$35.00 million over a five-year period.

Submissions: Paper (a page or less) must be submitted electronically at conceptpaper@smart.mit.edu

Website: <http://www.create.edu.sg> / <https://smart.mit.edu/>

Many thanks!

Connie
