In partnership with the Heising-Simons Foundation, APS is pleased to announce [Advancing Graduate Leadership \(AGL\)](#), which aims to provide professional and leadership development training for **women and gender minority** graduate students and postdocs.

AGL has several events coming up for training and networking:

- [AGL Conference](#) (Argonne National Laboratory): March 12-13, 2022
- [AGL Mentor Training Workshop](#) (virtual): February 7-10, 2022, 12:00-2:00 p.m. ET

[Learn More](#)

The [AGL Conference](#) will feature professional development training, networking, and a celebration of women's roles in exploring cutting edge science and in shaping our disciplinary culture.

Application deadline: January 24, 2022

[Apply for the Conference](#)

The [AGL Mentor Training Workshop](#) will help attendees learn how to develop mentorship skills, a key component in advancing the next generation of researchers. This workshop is hosted in collaboration with the [Center for the Improvement of Mentored Experiences in Research \(CIMER\)](#).

Application deadline: January 24, 2022

[Apply for the Workshop](#)

If you know someone who might be interested in these events, we encourage you to share this opportunity with your network by forwarding them this email.

*The activities within AGL are open to individuals who do not identify as cisgender men. We encourage participation of cisgender women, gender non-binary individuals, and transgender individuals.
